GP Information booklet

**2008**

### Welcome to the Bon Secours Hospital, Cork

The Bon Secours Hospital, Cork is one of the largest independent Catholic hospitals in Europe with 332 beds, employing over 826 staff. The hospital was founded by the Bon Secours Sisters in 1915. The hospital has continually developed over the past 92 years and has a proud tradition of providing patient focused acute medical care in Cork. The hospital is a state-of-the-art facility providing a significant portion of the total acute care needs of the Cork region.

- 35% of all elective in-patient admissions in Cork city
- 16% of acute/emergency in-patient admissions in Cork city
- 25% of all in-patient activity in Cork
- 15% of all day cases
- 19% of acute hospital beds

### OUR MISSION

The Mission of the Bon Secours Hospital is care for the sick, the dying and their families within a Catholic Ethos.

We recognise the dignity and the uniqueness of each person, seeking to provide high quality holistic care characterised by compassion, respect, justice and hope.

### VISION

Through our Mission, Bon Secours Health System will:

- Be a leader in Catholic Healthcare in Ireland
- Empower staff to reach their full potential
- Reach out compassionately to the community
- Be innovative and responsive to new developments in healthcare and maintain our patient friendly environment in all our hospitals.

### VALUES

- **Respect**  
We treat all people with respect because we believe in the dignity of each individual.
- **Justice**  
We support, protect and promote the rights of all individuals.
- **Integrity**  
We are honest in our dealings. Our behaviour is consistent with our thoughts, feelings and values.
- **Stewardship**  
We use all of the Bon Secours resources in a responsible way.
- **Innovation**  
We look for new ways to meet people's needs and improve our services.
- **Compassion**  
We experience and express empathy with the life situations of others, especially the poor.
- **Quality**  
We strive to meet and exceed the standards of good service.

- Ultrasound
  - General Ultrasound including Endocavity
  - Small Parts
  - Vascular Doppler Studies Venous & Arterial
  - Blood Flow Studies
  - Extremities
- Computed Tomography Whole Body
  - 64 Slice Scanner

### Computed Tomography Whole Body - 64 Slice Scanner:

The Bon Secours Hospital, Cork is pleased to announce the installation of the first 64 Slice CT scanner in the Cork region, indeed the first for this vendor in Ireland. This scanner utilises the most sophisticated CT detector available and industry leading technologies to deliver extreme diagnostic power. With high speed scanning it offers unsurpassed image quality at the fastest speed at potentially reduced radiation, to impact both specialised applications and routine scans.

These include:

- Cardiac Imaging – new, accurate non invasive cardiac and coronary vessel evaluation not previously possible.
- Paediatric – faster and lower dose imaging
- Orthopaedic Imaging
- Vascular, non invasive vascular evaluation
- Improved general (neuro & body) CT Imaging including Oncology

The investment in this scanner reflects the continued commitment of the Bon Secours Hospital, Cork to the newest advances available in disease diagnosis putting the hospital at the forefront of imaging technology and cardiology services in Ireland.

- **MRI Service**  
Full range of neuro, musculoskeletal and body applications.

- **Nuclear Medicine Department**  
Isotope bone scanning  
Thyroid nuclear studies  
Ventilation/perfusion lung scanning  
Sentinal node scintigraphy

### Interventional Radiology Procedures:

Non-vascular: Image guided (US/CT/Mammo) biopsies and drainages, complex biliary, renal and gastro-intestinal interventions, including colonic and oesophageal stenting.

Vascular: Catheter vascular studies (venography and arteriography) including angioplasty and stenting, therapeutic embolisation, including fibroid embolisation, vascular access (insertion of Portacaths etc.), and caval filter placement.
