

Clinical Nurse Manager 2 - Infection Prevention & Control (Full / Part Time)

Full Time / Limerick - Ireland / 0122021

Summary

CLINICAL NURSE MANAGER 2 - INFECTION PREVENTION & CONTROL (FULL / PART TIME)

LIMERICK

We at Bon Secours Hospital Limerick at Barringtons, a leading dynamic healthcare facility are pleased to announce we are recruiting a **Clinical Nurse Manager 2 in Infection Prevention & Control** for our elective surgical hospital based in Limerick City. Full time and part time applications for the post will be considered.

Bon Secours Health System (BSHS), the country's largest private hospital operator, is developing a new 140-bed medical facility in Limerick City. BSHS has purchased a 7-acre site at Ballysimon to the east of Limerick City. Located at a key transport artery into Limerick, one kilometre from Junction 29 and the M7 Motorway, the site was selected for its ease of access for people travelling from other parts of the Mid-West and Midlands.

This commitment will see the expansion of surgical specialties currently delivered at Bon Secours Hospital Limerick at Barringtons plus the addition of cardiology, MAU and other medical services, eliminating the need for patients to travel outside the region.

This is an exciting opportunity for an enthusiastic, progressive and talented Clinical Nurse Manager 2 in Infection Prevention & Control to join our nurse management team in the present hospital and also contribute to the planning of this wonderful new state of the art facility.

The Clinical Nurse Manager 2 in Infection Prevention & Control will manage the activities of the Infection Prevention & Control program and provide professional / clinical leadership in the designated area(s) of responsibility.

The ideal candidate will:

- Be registered in the General Division of register of Nurses kept by Nursing and Midwifery Board of Ireland (NMBI)
- Have at least 5 years post registration nursing experience in the past 7 years, plus relevant experience in the specialist area
- Have acute hospital nursing / relevant healthcare experience, ideally at nurse management level
- Hold a Post Graduate Qualification in Infection Prevention & Control

Person Specification:

- Must possess strong leadership qualities, communication skills and clinical skills
- Demonstrate the ability to lead on clinical practice and service quality
- Demonstrate the ability to plan and manage effectively

- Demonstrate commitment to providing a quality service
- Possess strong IT skills
- Enjoy the challenges of working in a dynamic team environment

Informal enquiries to: Bernadette Carroll, Director of Nursing, email: bc Carroll@bonsecours.ie

Application by way of Covering Letter and Curriculum Vitae should be forward to:

Linda O Grady
HR Administrator
Bon Secours Hospital Limerick at Barringtons
Georges Quay
Limerick
Email: logrady@bonsecours.ie

This vacancy will be closed as soon as sufficient applications are received.

Only candidates who are selected for interviews will be contacted.

Applications may be sourced from existing referrals / CVs on file.

A Panel may be formed to fill future vacancies.
