

Neurophysiology Tests Available

Clinical Neurophysiology specialise in recording and interpreting electrical signals from the brain and nerves, which is crucial for diagnosing and managing neurological conditions.

Our team is led by

Dr. Peter Kinirons Consultant Neurologist and Neurophysiologist, and clinical neurophysiologists dedicated to providing expert care with compassion and understanding.

Services include

- Routine Electroencepholgraphy (EEG)
- Investigation, diagnosis, and management of neurological disorders as outpatient for patients over 16 years of age.
- Nerve Conduction Studies (NCS)
- Screening for nerve entrapments or peripheral neuropathy

Referral Pathway

- GP can send a referral via Healthlink to arrange diagnostics for the attention of Dr. Peter Kinirons
- Appointments offered within 2-4 weeks
- Quick results – Report sent directly to the GP

Payment

- Health insurance accepted depending on patients cover and policy.
- Self-pay fee for NCS and EEG is €350
