BON SECOURS HOSPITAL CORK: OUR MISSION

To care for the sick, the dying and their families within a Catholic Ethos. Inspired by the Gospel and sharing in the healing mission of Jesus, we recognise the dignity and uniqueness of each person, seeking to provide high quality holistic care characterised by compassion, respect, justice and hope.

BON SECOURS HOSPITAL CORK: OUR VALUES

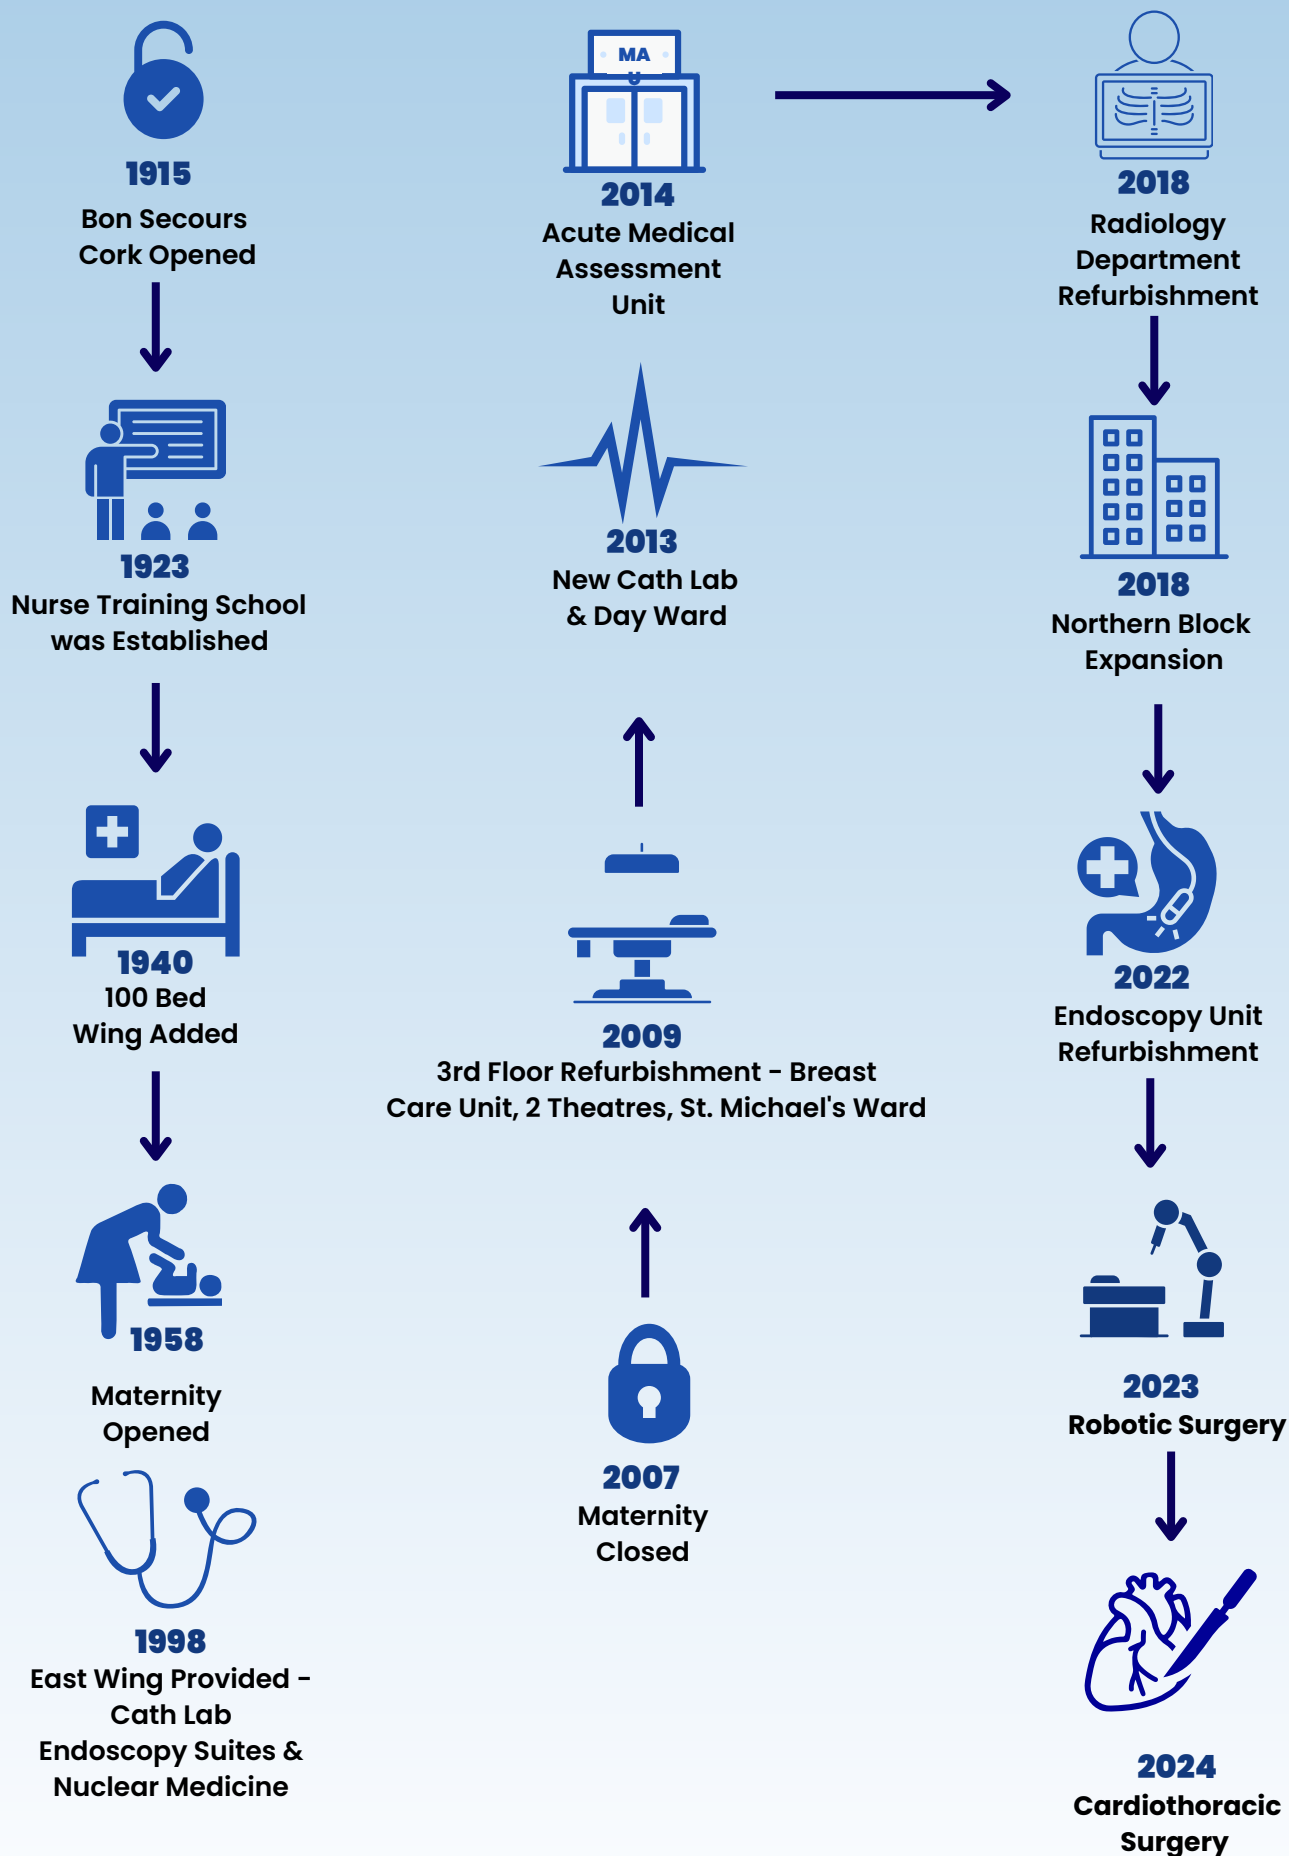

BON SECOURS HOSPITAL CORK: OUR VISION

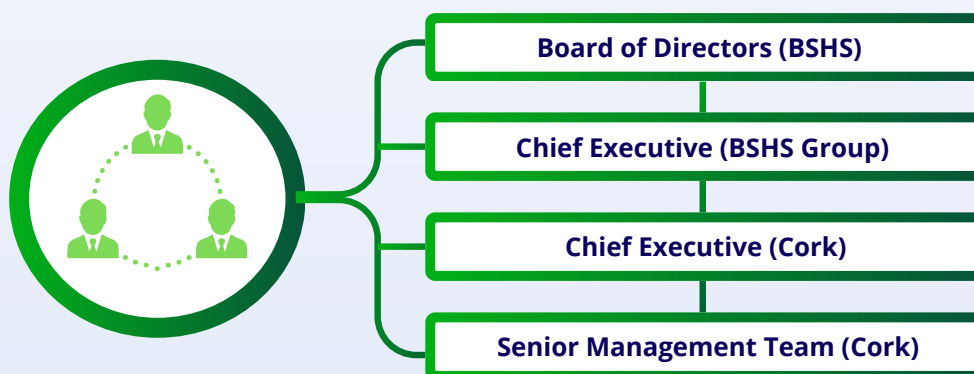

BON SECOURS HOSPITAL CORK: OUR HISTORY

BON SECOURS HOSPITAL CORK: OUR GOVERNANCE

BSHC is a member of the Bon Secours Health System Ireland (BSHS) along with four acute care services in Limerick, Galway, Dublin, Tralee and a care of the elderly service in St. Joseph's Care Village in Cork. BSHS is committed to ensuring that all patients and residents across the group receive the highest standard of care. BSHS has established robust and effective governance structures as a mechanism to ensure the hospital is accountable for all of its actions. BSHS is responsible for the safe and effective provision of services and has delegated responsibility for the management of the hospital to the Chief Executive Officer (CEO) and the Senior Management Team as shown below.

The Senior Management team in BSHC is led by the Chief Executive Officer and comprises of:

	Cork CEO		Business Manager
	Director of Nursing		Quality & Risk Manager
	Mission Lead		Head of Finance
	Head of HR		Clinical Director

Bon Secours Hospital Cork Senior Management Team - Led by Harry Canning (Cork CEO)

BSHC Quality Priorities 2024

BON SECOURS HOSPITAL CORK: OUR PATIENTS

A link between organisational objectives and values is patient engagement. Over the last 3 years, patients of BSHC have reported an overall positive experience in our Patient Experience Survey. Our results have led to recognition within the Bon Secours Health System for our quality initiatives, including projects on communication.

In 2023, there were 4,150 respondents to the Patient Experience Survey. 92% of participants rated their overall experience in BSHC as positive. The hospital also scored highly for all stages of care.

93%

of patients rated their care and treatment on the wards as a positive experience.

92%

of patients rated their overall experience a positive one

97%

of patients gave positive responses to questions about being treated with Respect and Kindness during their hospital admission.

88%

of patients found the discharge process positive.

Accreditation

BON SECOURS HOSPITAL CORK: OUR STAFF

BSHC has a workforce of 1,458 staff providing complex diagnostic, medical and surgical services. BSHC is affiliated with University College Cork (UCC) and we provide medical training facilities for medical, nursing and health & social care students. In 2022, a number of our Consultant staff were appointed as Professors in conjunction with UCC.

BSHC has also invested in our staff with the provision of the Education Centre and a Research Library for students and staff. BSHC staff have presented at conferences and published peer reviewed journals that have resulted in substantial improvements in quality of care & services across healthcare.

In 2023, a number of our staff and teams were recognised for the quality of the work with winning entries at the Bon Secours Health System staff awards.

New AED Defibrillator
for Mayfield G.A.A.

The Oncology Medical Home (OMH) model is a guide to identify and implement a comprehensive oncology care delivery system that is focused on quality of care. It is an all-encompassing model meant for patients, care teams, and payers of all types. In a medical home health care delivery model, the “medical home” serves as the central coordinator of a patient’s care. The goal is to ensure that quality, outcomes, and value are optimized through patient-centered care coordination. Traditionally, medical homes have been thought of as being based with a primary care physician who oversees all of a patient care needs, including specialty care.

PATIENT POINTS OF ENTRY

PATIENT PATHWAY

1. Oncologist Review

2. Planning Meeting

3. Oncology Liaison Nurses

Communication with Chemo-oncology

- Name
- Diagnosis
- Height/Weight
- Allergies
- Treatment Plan- Time to start
- If relevant; Approval secured
- Goals of care

4. Preassessment Clinic

Assess patients 48 hours in advance of their planned treatment. The focus of this consultation is on assessment and the patient has an opportunity to discuss their chemo toxicities with the Pre-Assessment Nurse and RMO without the pressure of time deadlines

Inpatient Service

St. Bernadette’s is a 27-bed inpatient oncology ward, expertly managed by a Clinical Nurse Manager (CNM2) and a dedicated team of specialised (CNMI)’s and staff nurses. Each inpatient bedroom is a single room with en-suite facilities

Oncology Day Services

The Oncology Day Service St. Veronica’s is a specifically appointed unit for patients to receive chemotherapy. There are 23 cubicles with lounge chairs for patients to receive their chemotherapy. There are a number of private rooms

ONCOLOGY SERVICE: OUR PATIENTS

In October 2024 the Oncology Service undertook an an oncology specific patient experience survey, the EORTC survey.

An invitation to participate was offered to each patient discharged from the inpatient service, each patient attending the Infusion Unit and each patient attending the Oral Anti-Cancer Medicines Clinic.

Over the course of the week a total of 79 patients participated:

96%

Rated Their Overall Care as Excellent

89.7%

Felt They Had High Levels of Privacy

9.4

of 10 020 - 2024

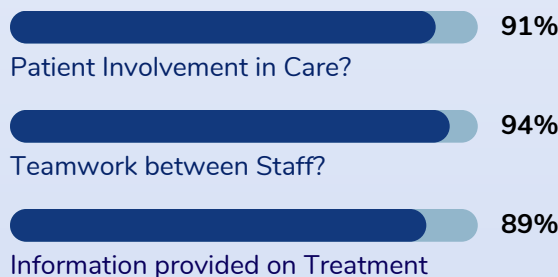

Rated Thoroughness in Treating Physical Symptoms as Excellent

92.6%

Rated Staff as Excellent in Providing Comfort & Support

How Did Patients Rate Their Care?

94%

Patients Reported Treatment with Dignity & Respect

93%

Rated the Environment as Excellent

95%

Rated the Time Devoted to Patients as Excellent
